

WSTA 113th Annual Convention Mobile App Login & Profile Setup Procedures

Setting up your Profile:

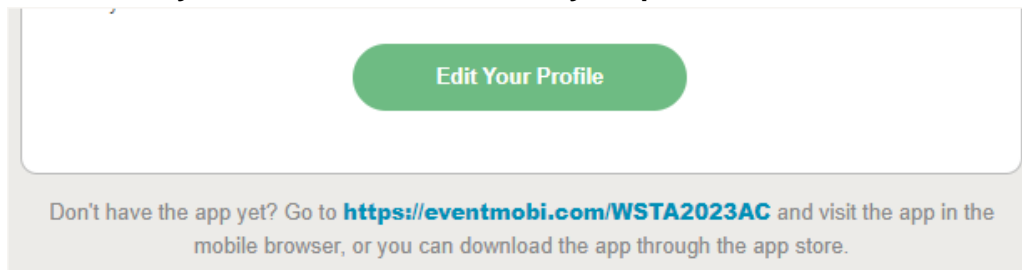

New this year is a mobile app that will be used in place of a printed program. This app not only helps attendees to connect with one another, but also allows for increased interaction and feedback. Please note - there will not be any printed programs so be sure to download the app to access all features .

Every attendee will receive an email from “WSTA 113th Annual Convention” that includes a link to update your personal profile. **NOTE:** The system uses the email that you registered with.

Look for this email:

In the email you will see a button to edit your profile:

Our testers say it's a little easier to update your profile information in a browser window (rather than on your mobile device).

Downloading the App:

For full functionality you will want to download the app from the Apple App Store, or Google Play Store. Look for the EventMobi app with the yellow icon.

When it asks you for an event code enter: **WSTA2023AC**

Note: If you don't remember your password, you can select the "one-time passcode" and the app will send a code to the email address associated with your registration. You can use this code to sign in to the app.

Note: If someone else registered you and their email address is associated with your profile, you can use the "one-time passcode" option and ask that person to forward the code to you so that you can complete the verification.
